

Professional Course £1980

One month virtual and 1 week onsite

The Bike Inn's Professional course (including IMI Level 3) carries on from the course materials covered in our Theory and Foundation course (IMI Level 2) and goes on to cover the following...

- Advanced hydraulics, including rear suspension and dropper posts
- E-bikes, including diagnostics, problem-solving and legislation
- Advanced wheel systems and complex wheels
- In-depth diagnostics of all electronic groupsets
- Performance bike fitting
- Cycling coaching
- Frame geometry and a detailed look at how this affects bike handling

Assessment to gain the Professional qualification entails an element of short essay writing, in addition to the virtual practicals, which must be completed in your own time and submitted and assessed before you can receive your qualification.

Professional E-bike Course £850.00

One week virtual and 2 Day onsite

- An introduction to E- Bikes
- Tools required in addition to 'regular' bikes
- A look at all makes of systems currently on the market
- Full diagnostics on all systems (where the manufacturers allow this)
- Dignostics, fault finding and the limits of repair for E-bikes outside of warranty
- Strip and rebuild where possible
- Conversion kits
- The Bike Inn E-bike Assessment and certificate of competence

THE BIKE INN NEW COURSES AND COURSE OFFERINGS
